

COMPANY POLICY

POLICY STATEMENT

CAMTECH MANUFACTURING FZCO is a manufacturer of carbon, stainless and alloy steel industrial valves, for end users in the oil and petro-chemical, gas, power, water and process industries.

The philosophy of CAMTECH is that of offering a "one stop shop" for valves, piping and fluid control needs for all of our clients and potential clients.

Exceeding customer expectations, an unswerving commitment to quality and the culture of "right first time" is continually being assessed, improved and actively encouraged at all levels in the organization, to ensure that the Quality Management System is effective. Customer focus is the cornerstone of CAMTECH as a company. Similarly, compliance with current international standards and codes of practice, statutory and regulatory requirements are paramount.

CAMTECH Management shall ensure that Quality Objectives, including those needed to meet the requirements for the product, are established at relevant functions and levels and shall be measurable and consistent with the Quality Policy.

CAMTECH is committed to demonstrate the Leadership and Commitment in the form of Provision of Resources, Process Approach, Risk Based Thinking, Communication, Training, Engaging, Directing and supporting persons which helps to improve the effectiveness of Quality Management System.

In order to achieve the intended results of Quality Management System, CAMTECH is committed to determine the Internal and External issues that are relevant. Quality Policy is appropriate to CAMTECH and support strategic direction of CAMTECH.

CAMTECH is totally committed to a Quality Policy that ensures that its products which meet the requirements of its customers consistently and functions throughout all business processes.

The CAMTECH Quality Policy demands that:

1. The provision of high-quality products which meets the customer requirements in full is the "norm", shall be maintained, by conducting an on-going internal audit on all departments.
2. Customer - Supplier relationships are established and maintained to strive for continual improvement of the effectiveness of quality management system and business activities, by conducting regular site audits and acting upon complaints received.
3. Working methods and procedures are constantly reviewed and audited in order to identify and eliminate unsatisfactory processes.
4. The achievement of "zero defects" is attainable by continuous training and mentoring of all employees to ensure a positive commitment to quality and the philosophy of "right first time".

The Quality Management System of CAMTECH is based upon the requirements of API SPEC Q1, 10th EDITION - 2023 / ISO 9001:2015 / PRESSURE EQUIPMENT DIRECTIVE, 2014/68/EU / ATEX DIRECTIVE 2014/34/EU

The CAMTECH Quality Policy is understood, implemented, maintained and communicated within CAMTECH and available to relevant interested parties, as specified by CAMTECH.
